NEW RAMP FROM I-95 NORTH TO LEWISTOWN ROAD OPEN IN HANOVER

Drivers should follow new traffic pattern; be alert to new traffic signal

HANOVER —The Virginia Department of Transportation (VDOT) will open the new ramp from Interstate 95 north to Lewistown Road (Route 802) in Hanover County on Wednesday, November 9 following morning rush hour. The new ramp alignment is part of the \$30 million Lewistown Road bridge replacement project.

Also, as part of the new ramp configuration, drivers will begin using the temporary traffic signal at the intersection with Lewistown Rd. A permanent traffic signal will be installed by the completion of the project, which is slated for winter 2017.

For more information about the construction project, visit:
